

Money Empowerment

The DSS Consulting Difference.

DSS Consulting coaches you to success in strategic and financial decision making

Achieving a successful financial future require long-range thinking and long-term actions. Are you taking the steps necessary to achieve your financial success?

You already know that strategic long-term planning guides you to success. Are you using those same strategies to achieve financial success, too? When income pivots into assets, your financial plan needs to pivot also. It is more important than ever to stop going from decision to decision without an integrated plan.

Our Money Empowerment program focuses on clients who require multiple layers of planning and decision-making. Our model helps you quantify overarching goals and then provides coaching on a consistent, ongoing basis so that you have the knowledge necessary to take action. As often as weekly, we will have conversations designed to take multiple financial tasks and break them down into manageable pieces. Life is too short to lose precious time when your financial future is at stake. Let us help guide you.

Money Empowerment begins with a one-hour initial call. During that call, we gather information necessary for us to understand where you are now, where you want to go, and your concerns and questions about options for the best path forward. Highly personalized and interactive, Money Empowerment is for clients who are ready to commit to having in-depth conversations about financial issues, and who have the desire to be engaged and empowered in their financial journey. Money Empowerment is an excellent choice for clients whose financial situation is potentially complicated and requires nuanced solutions. Clients have discovered that we offer useful and innovative solutions to achieving financial goals. Priced at \$250/hour, we have a 10-hour minimum and require a \$2,500 deposit to start.

Ilene Slatko, CEO
DSS Consulting

We believe you deserve financial success. With over 30 years working with high-net worth clients, we have the knowledge and experience to guide you, too.

DSS Consulting

Financial literacy, simplified.
